

Historic Jetliners Group Boeing 727-200 Advanced - Versió 2010

CATALÀ:

Textures per l'Historic Jetliners Group (HJG) Boeing 727-200 Advanced en la versió 2010 de les Línies Aèries virtuals dels Països Catalans (Catalonian Airlines - CAT) (<http://www.catalonian-airlines.cat>) per FS2004.

En l'arxiu comprimit teniu aquest document que esteu llegint i una carpeta anomenada "texture.CAT_2010".

INSTAL·LACIÓ:

1. Cal tenir instal·lat prèviament el paquet base del Historic Jetliners Group Boeing 727-200 Advanced que trobareu al web Historic Jetliners Group (<http://www.simviation.com/hjg/main.htm>).
2. Copiar la carpeta texture.CAT_2010 dins del directori del HJG Boeing 727-200 Advanced (B727-200 ADVC_HJG) que ja haureu instal·lat al vostre FS2004.
3. Obrir el fitxer aircraft.cfg del vostre HJG Boeing 727-200 Advanced amb l'editor que preferiu (Notepad, per exemple).
4. Copieu el text que teniu tot seguit entre les dues ratlles d'asteriscs (sense els asteriscs, naturalment) i enganxeu-lo a continuació del darrer grup [fltsim.XX] que hi hagi en el fitxer aircraft.cfg.

7. Salveu el fitxer i engegueu el FS2004.

AGRAÏMENTS:

A totes les persones que de forma desinteressada dediquen part del seu temps en desenvolupar els meravellosos afegits al simulador base.

Historic Jetliners Group Boeing 727-200 Advanced - Version 2010

ENGLISH:

Textures version 2010 for the Historic Jetliners Group (HJG) Boeing 727-200 Advanced of the Línies Aèries virtuals dels Països Catalans (Catalonian Airlines - CAT) (<http://www.catalonian-airlines.cat>) for FS2004.

In the zip file you have downloaded you will find this document you are now reading and a folder called "texture.CAT_2010".

INSTALLATION:

1. The base package of the HJG Boeing 727-200 Advanced must be already installed in your FS2004. You may download this base package at the web site of Historic Jetliners Group (<http://www.simviation.com/hjg/main.htm>).
2. Copy the folder texture.CAT_2010 into the folder of the HJG Boeing 727-200 Advanced (B727-200 ADVC_HJG) which you should have already installed.
3. Open the aircraft.cfg file of your HJG Boeing 727-200 Advanced with your preferred editor (Notepad, for example).
4. Copy the text between the asterisk lines that you can find after this paragraph (without including the asterisks, of course) and paste it after the last [fltsim.XX] group in your aircraft.cfg file.
