En l'arxiu comprimit teniu aquest document que esteu llegint i una carpeta anomenada "texture.CAT_2010".

INSTAL·LACIÓ:

1. Cal tenir instal·lat prèviament el paquet base del Flight One ATR 72-500 que trobareu al web de Flight One a <http://www.flight1.com/>.
2. Copiar la carpeta texture.CAT_2010 dins del directori del Flight One ATR 72-500 (Flight 1 ATR-72-500) que ja haureu instal·lat al vostre FS2004.
3. Obrir el fitxer aircraft.cfg del vostre Flight One ATR 72-500 amb l'editor que preferiu (Notepad, per exemple).
4. Copieu el text que teniu tot seguit entre les dues ratlles d'asteriscs (sense els asteriscs, naturalment) i enganxeu-lo a continuació del darrer grup [fltsim.XX] que hi hagi en el fitxer aircraft.cfg.

5. Canvieu les XX que hi ha a [fltsim.XX] pel número correlatiu següent al [fltsim.XX] anterior.

6. En la línia "atc_id=" podeu posar el vostre indicatiu (en el meu cas és CAT012) que és el que apareix en el camp "Nombre de ATC" en la pantalla "Seleccionar Avión". També podeu fer-ho cada cop que seleccioneu l'avió a l'engegar el simulador.
7. Salveu el fitxer i engegueu el FS2004.

AGRAÏMENTS:

A totes les persones que de forma desinteressada dediquen part del seu temps en desenvolupar els meravellosos afegits al simulador base.

Agraïment especial mereix Leen de Jager, home de gran paciència i virtuts de mestre, que m'ha dedicat un bon nombre d'hores per ensenyar-me a fer millor aquesta feina de repintar avions. Moltes gràcies Leen !!

In the zip file you have downloaded you will find this document you are now reading and a folder called "texture.CAT_2010".

INSTALLATION:

1. The base package of the Flight One ATR 72-500 must be already installed in your FS2004. You may download this base package at the web site of Flight One (<http://www.flight1.com/>).
2. Copy the folder texture.CAT_2010 into the folder of the Flight One ATR 72-500 (Flight 1 ATR-72-500) which you should have already installed.
3. Open the aircraft.cfg file of your Flight One ATR 72-500 with your preferred editor (Notepad, for example).
4. Copy the text between the asterisk lines that you can find after this paragraph (without including the asterisks, of course) and paste it after the last [fltsim.XX] group in your aircraft.cfg file.

6. Under line "atc_id=" you may type your callsign (in my case it is CAT012) which will be displayed under "ATC name" in the "Select aircraft" screen. You may also change it each time you run the simulator and when selecting an aircraft.
7. Save the file and run FS2004.

ACKNOWLEDGEMENTS:

To all these people that invest part of their time to develop such wonderful add-ons for the base simulator for free.

I am specially grateful to Leen de Jager, a very patient man with huge teacher virtues. He has dedicated a large number of hours of his time to teach me on how to do this task of aircraft repainting much better than when I started. A big THANK Leen !!
